

Name: Kris Lenu George

Prince Roxy and the Dark Fang

Our universe is surrounded by many planets. Wherein there is one planet called Photosyntheson, there lived people, animals and plants. Unlike Earth, these humans have different hair and eye colour and are very strong and healthy; they make tree houses and live in trees. They eat healthy vegetables and fruits which are grown naturally. The common animals are dinosaurs, dodo, snakes, mammoths, and dragons, while the rare animals are grasshoppers, spiders, squirrel, and dragonfly. But the major difference between Earth and Photosyntheson is that in this planet, nature is protected. They grow more trees and they do not pollute the water, land or air.

This planet consists of big and small Islands. One of the largest islands on this planet is Spring Island. It has different season each day— if the weather is like spring today it will be like winter tomorrow. People come from all over the planet to see the different seasons. A lot of rare animals are found in Spring Island. The people also like the view of the island because it has small hill and has a lot of animals.

On another island named Desert Island, there lived a young man called Dark Fang. He is a tall, strong, wicked, and 21 year old with black hair who wanted to rule over Spring Island, and then control other islands and then rule over the entire Photosyntheson. He has almost 4000 robots. His robots had long metal faces and thin metal bodies. He killed anyone who stood against him. One day, Dark Fang sent a message through one of his robots telling Prince Roxy of the Spring Island to join him and rule all the islands or else he will kill his parents, King Jack and Queen Jill and his friends, Jimmy Tom, July Nori, Nevin Bottom, Judy Hops, William Robert and James

Robert. Prince Roxy told to his parents, “I found one of Dark Fang’s robots with a message from him saying that if I do not join him, he will kill both of you and my friends”. Prince Roxy’s parents did not take this seriously. But his friends believed him and asked what they should do. He told them to hide and wait till the attack is over.

Five days later, it was dark and around 12am there was an attack from Dark Fang and his robots. They attacked the tree castle where Prince Roxy and his family lived, which was surrounded by trees from all sides. Prince Roxy ran to Dark Fang and started a duel fight with laser swords. While they were fighting, Prince Roxy asked, “Why are you attacking my castle?” Dark Fang replied, “I want to rule over this island”. But the fight went badly because Prince Roxy was not that strong and only had a little training. He lost the duel and his leg was wounded. With the help of his friends, they took him away to the forest. Dark Fang took Prince Roxy’s parents and the people of Spring Island as hostage in the castle. When Prince Roxy recovered in the forest, his friends told him that his father and mother are taken as hostage and they couldn’t save them.

Jimmy Tom, a young man with blue hair and blue eyes, was Prince Roxy’s best friend. When they both were studying in school, Prince Roxy helped him from a bullying student and from that day onwards they became best friends. Even though they were in the forest, he was in his usual red T-Shirt and blue pants. After hearing his parents were taken hostage, Prince Roxy was devastated. He didn’t know how to save them. Then, Jimmy mentioned that there is a place where Prince Roxy can be stronger and quicker to fight Dark Fang in the forest. The teachers were called the ‘Seven Masters of Fighting’.

Jimmy explained that only some students were able to learn from the Masters of Fighting and whichever student learnt with dedication had very good fighting skills. However, Jimmy also mentioned that only some people know how to find them.

Then, another friend of Prince Roxy called Nevin Bottom said, “The legend is that if anyone wants to find the Masters of Fighting, they must solve a riddle - When the sun rises, wherever the shadow falls, that is the entrance to the Master of Fighting”. All the friends took turns sleeping in trees. After sometime, the sun rose and another friend called July Nori was the first to see the sun rays fall into the waterfall. She called her friends suddenly and they all got up from their sleep. There were all confused about how to enter into the waterfall but Prince Roxy was clever and the first to find out that they can walk into the waterfall. Then Roxy asked the 7 Masters of Fighting, , “Can you train me and my friends? We need to be strong and quick to fight the Dark Fang who is trying to rule our island”. The Masters agreed to train Prince Roxy and his friends, but only if they worked with dedication and practiced hard. Since they were all very determined to rescue their parents and defeat Dark Fang, after a few days, they all mastered the fighting skills and techniques.

In the tree castle, Dark Fang was with the hostages and was making plans to capture Prince Roxy and his friends. He didn't want Prince Roxy to tell the other islands about his plans to rule Photosyntheson and get prepared for his attack. So Dark Fang sent a pigeon to Prince Roxy with a letter and mentioned that if he doesn't surrender, he will kill his parents and the other people who were taken hostage.

Prince Roxy decided to rescue his parents and the other hostages. He planned to distract Dark Fang by going to the castle's entrance while his friends will enter from the back of the castle and take the hostages to a safer place. So the next day, they all came out of the forest and Prince Roxy went to the castle's main gate to meet Dark Fang and his robots, meanwhile his other friends attacked the back door of the castle. They followed the plan but unfortunately, there were lot of robots, guarding the back side of the castle with the prisoners. When everyone thought Prince Roxy was about to surrender, he suddenly turned and ran back to the forest. Dark Fang got angry and ordered the robots to kill his parents. Meanwhile his friends started attacking the robots at the backside of the castle. Prince Roxy who was terrified suddenly remembered his friends. So, he came out of the forest and joined the fight. He saw that his friends had fought the robots and helped the King and Queen to escape. Since there were still many robots to fight, Prince Roxy told his friends, "We should go to the Masters of Fighting. They will help us in this fight". Suddenly the castle doors started to close, to save his friend Jimmy, Prince Roxy pushed him outside and the door closed with Prince Roxy inside the castle. The robots captured Prince Roxy and put him in prison. The prison was very dark and cold, and he felt hopeless inside the prison.

On the outside, Jimmy and his friends were again making a plan to rescue Roxy and the rest of the hostages. Prince Roxy also made a plan inside the prison. When one of the robots came inside the prison to give him food with a gun, Prince Roxy jumped on him and took the gun and shot the robot. Due to the sound of the gun shot, everyone started to panic and rush to the prison. Prince Roxy quickly ran to his room in the castle. He remembered that his father told that there was a secret passage to get out of the castle from his room. There were many clocks in his room, and if you changed one of the clock's time, the secret passage opened. He changed the time of the clock and the secret passage opened. When the robots reached Prince Roxy's room, they couldn't find him and so they left and started searching the other castle rooms.

Prince Roxy escaped out of the castle, but Dark Fang was standing outside the entrance. They started a duel. Prince Roxy pushed Dark Fang against a tree, when a poisonous spider fell from the tree onto his shoulder. Suddenly, Dark Fang became very frightened and started running to the castle trying to shake the spider off. He ran to a fountain and jumped into the water to get the spider off in any way possible. Meanwhile, Prince Roxy went back to the waterfall, where

he was surprised to see his parents. He cried with happiness and hugged them. Then, he thanked his friends for their bravery.

Next, Prince Roxy explained to his friends that he found a weakness of Dark Fang. He told them about the spider, and how Dark Fang was so scared and even jumped into the fountain. Everyone was surprised to know that spiders are his weakness. They all started to search for spiders, but since spiders were one of the rare animals in Spring Island they only got three. Prince Roxy told, "We will use these spiders to defend ourselves against Dark Fang. But first, we have to find where the rest of the people of Spring Island are being held and free them". Prince Roxy made a plan. He said, "One of us will dress up as a villager, and carry a GPS while entering the castle. When the robots find the person, he can activate the GPS once he reaches the place where the prisoners are kept, so that we can track their location and save them". William Robert quickly replied, "I will do this task with courage".

The next day they executed the plan and William was taken prisoner by the robots. Prince Roxy got ready with his friends prepared to attack the castle and free their friend and the other hostages. They executed the plan correctly and rescued all the hostages and William. The people told Prince Roxy that they too will join the fight.

When Dark Fang heard about what Prince Roxy and his friends did, he was furious. Then he remembered that Roxy had mentioned something about the Masters of Fighting before he got trapped in the castle. He used his robots to get all the information about the Seven Masters of Fighting, and the riddle to find their location. Then he sent a robot to the waterfall. In the morning, the robot came back and told that the first rays of the sun fell on a waterfall. Then Dark Fang said, "I will go and check near the waterfall, while all the robots guard the castle."

Dark Fang went and checked the waterfall. He realized it was possible to walk into the waterfall. Then he ran back to the castle and bought the full army of robots to capture Prince Roxy and his friends. One of the villagers saw Dark Fang and his army coming near the waterfall and warned Prince Roxy. Prince Roxy immediately told everyone, "Get out of here and head to the hill." By that time, Dark Fang realized that the people were running away. Roxy, Robert and William stayed behind to give the people some time. Suddenly, Roxy saw one more spider and he threw it on to Dark Fang, but the robots protected him. Then, Roxy told his friends also to run. They all reached at the top of the hill and stopped. Roxy asked, "Why did you stop at the top of the hill?" They answered, "There is no way to go further." Then he shouted, "Get ready to fight". Roxy and Dark Fang both switched on their laser swords. They both started to duel while his friends and the people of Spring Island fought the robots. Dark Fang kept pushing Roxy towards the cliff. When Roxy was about to fall, he thought that this would be the perfect time to throw the spider at Dark Fang. Then Roxy threw the spider and Dark Fang got very scared and tried to shake it off. While trying to get the spider off, he lost his balance and fell off

the cliff. When he fell all the robots got deactivated. All the people of Spring Island were very happy and they all went back to their homes.

However, Roxy said to his friends “We must do something about the robots.” Then, Jimmy said “Why don’t we use these robots as our soldiers?” Prince Roxy liked this idea and got his friends to reprogram the robots. Once again, Spring Island began to prosper and became a good place to live.
